Kenji Watanabe-Cruz

Sacramento, CA | 555-0112 | kenji.cruz@example.test

SUMMARY

Medical laboratory technician with seven years of experience in high-volume hospital and reference lab settings. Strong in hematology, chemistry analyzers, and quality control, with a record of reducing specimen rejection rates.

EXPERIENCE

Medical Laboratory Technician, Golden Valley Diagnostics
Sacramento, CA | Mar 2022 – Present

- Perform 250+ chemistry and hematology tests per shift on automated analyzers, meeting a 45-minute turnaround for urgent orders.
- Run daily quality control and calibration, documenting Levey-Jennings trends and escalating shifts to the lead technologist.
- Lowered specimen rejection by 18% by retraining nursing units on collection and labeling.

Laboratory Assistant / Phlebotomist, Alder Creek Hospital Laboratory
Folsom, CA | Jun 2019 – Feb 2022

- Collected 30-40 blood specimens per day with a low recollection rate across inpatient and outpatient draws.
- Prepared and centrifuged samples, and entered results into the laboratory information system.
- Supported a CAP inspection by organizing temperature logs and reagent records.

Specimen Processor, Delmar Reference Laboratories
West Sacramento, CA | Aug 2018 – May 2019

- Accessioned and sorted about 400 specimens nightly for routing to testing departments.

EDUCATION

- Associate of Science, Clinical Laboratory Science, Sierra Basin College, 2018

SKILLS

Hematology, Clinical chemistry, Urinalysis, Quality control, Phlebotomy, Laboratory information systems, Specimen handling, Safety and infection control, Troubleshooting analyzers

CERTIFICATIONS

- Medical Laboratory Technician (MLT) national certification
- California Clinical Laboratory Technician license
- BLS/CPR
