Teodor Petrescu

Dayton, OH | 555-0120 | teodor.petrescu@example.test

SUMMARY

CNC machine operator with seven years of precision machining experience across stamping and milling environments. Known for consistent first-pass quality, quick changeovers, and steady improvement of cycle times on high-volume aluminum and steel parts.

EXPERIENCE

CNC Machine Operator, Brightline Precision Components

Dayton, OH | Mar 2023 – Present

- Operate four 3-axis vertical mills running aluminum housings, holding tolerances of +/- 0.002 inch across 98 percent of lots.
- Reduced changeover time on a recurring bracket job from 52 to 34 minutes by staging tooling and pre-setting offsets.
- Perform in-process inspections with calipers, micrometers, and a height gauge, cutting scrap by 18 percent over two years.

Machine Operator, Calder Valley Metalworks

Springfield, OH | Jun 2020 – Feb 2023

- Ran CNC lathes and a small horizontal mill on a two-shift schedule, producing about 600 steel shafts per week.
- Edited basic G-code programs for feed and speed adjustments under supervision of the lead programmer.
- Trained six new hires on machine startup, tool wear checks, and first-article procedures.

Production Associate, Harlow Stamping Company

Dayton, OH | Jan 2018 – May 2020

- Loaded and unloaded stamping presses and sorted finished parts to a quota of 1,200 pieces per shift.
- Logged daily defect counts and flagged die wear to maintenance, helping reduce unplanned stoppages by 10 percent.

EDUCATION

- Certificate in Machine Tool Technology, Miami Valley Polytechnic Institute, 2017

SKILLS

CNC mill and lathe operation, G-code editing, Blueprint reading, Precision measurement, First-article inspection, Tool offset and setup, Changeover reduction, 5S and visual management, Shop safety practices, Basic SPC charting

CERTIFICATIONS

- OSHA 10-Hour General Industry
